PROFILE

I'm a dedicated programmer with a love for web design and web development. I'm a recent graduate of Seneca College's Computer Programming student and a fantastic problem-solver. I'm now seeking a position in the software industry where I can expand my abilities, learn new technologies, and contribute with a high level of devotion to the operations of the company.

PROJECTS

Personal Portfolio

I created a Personal Portfolio website using HTML, Tailwind, and React, showcasing my skills, projects, and achievements with a clean and interactive design.

Real Estate Website

As a passionate developer, I took the initiative to develop a fully functional front end website using HTML, CSS, and JavaScript as a personal project.

Movix Project

I developed a dynamic web application using React & Redux which allows users to discover movies and explore their details. With a user-friendly interface and vast collection of movies and TV shows.

Travel Website

I developed a Travel Website to showcase my front end skills in Web Designing and Development using React, CSS, and Vite.

WORK EXPERIENCE

Quantum First Automation

Dec 2022 – Present

Technical Support Representative

- Provide advice and training to users to address identified difficulties.
- Communicate electronically and in person with computer users experiencing difficulties to identify and document problems.
- Perform routine maintenance tasks, software updates, and repairs on warehouse equipment and systems for optimal performance and minimal downtime.
- Stay updated on new product releases, updates, and industry trends through training and professional development.
- Respond promptly to equipment failures or technical issues in the warehouse, implementing contingency plans to minimize disruptions.

BELL (Sales Associate)

March 2023 – Present

- Selling Bell products and services to customers in a retail or call center environment.
- Meeting or exceeding monthly and quarterly sales quotas.
- Providing exceptional customer service by addressing inquiries, resolving issues, and offering tailored solutions.
- Keeping up to date with product knowledge and promotions.
- Using CRM software to track customer interactions and sales leads.
